

SUMMER ENRICHMENT JOURNEY: 2026-27

LEARN ✧ EXPLORE ✧ CREATE

STD - 4

Dear Parents/Guardians,

The Summer Enrichment Journey is designed to make summer holidays joyful, creative, and meaningful through the theme "Biodiversity in Nature". Through fun and activity-based tasks, students will explore nature and real-life experiences while developing creativity, imagination, confidence, and writing skills. This project will help children utilize their vacation time in a productive and enjoyable way. We kindly request your support in guiding your child to complete the activities with enthusiasm and creativity in the Project File.

Topic 1:

A Conversation in Nature

Draw or paste any two insects, birds or animals of your choice. Create and write a conversation in the form of dialogues between them about how pollution affects their lives.

Topic 2:

शीर्षक - प्रकृति बचाओ, जीवन सजाओ।

जैविक विविधता के संरक्षण को चित्रात्मक रूप में (चित्र बनाकर) प्रस्तुत कीजिए व दस (10) वाक्यों में प्रकृति के महत्त्व और संरक्षण पर अपने विचार लिखिए।

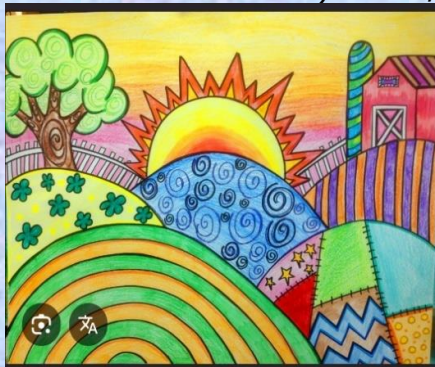

Topic 3:

Draw and colour the picture of landscape shown below.

Answer the following questions:

1. Which type of line appears the most?
2. If one spiral design takes 9 minutes to draw and there are 15 spirals, how much time is needed to draw all the spirals?
3. Which fraction is greater?

a) Hills / Rays of the Sun or b) Stars / Flowers

Topic 4:

Bird Nest Collage

Make a collage of a bird's nest using eco-friendly materials like twigs, dry grass, coconut fibre, paper, or cotton. Paste or draw the bird that lives in the nest.

Write a short note on:

- Why do birds build nests?
- How we can protect birds?
